

## Rehabilitation Therapy Services

### Acute Therapy

A Guide for Ventilator Weaning for RTs and SLPs  
 Acute Care Best Practices: Outcome Measures & Clinical Reasoning for PT  
 Acute Care PT: Best Practices for Using Outcome Measures and Clinical Reasoning  
 Acute Orthopedic Surgery: Physical Therapy Evaluation and Management  
 Assessment and Interventions for Dysphagia in Acute Respiratory Patients  
 Best Practices for Acute Rehabilitation Post Total Hip Arthroplasty  
 Best Practices for Acute Rehabilitation Post Total Knee Arthroplasty  
 Best Practices for Managing Speaking Valves in the Acute Patient  
 Capnography: An Overview  
 Creating a Culture of Safety: A Guide for PTs and OTs  
 Dysphagia Assessment and Intervention After Acute Stroke  
 Introduction to Acute Care: Fundamentals for PT and OT Professionals  
 Introduction to the 4Ms and Age-Friendly Health Systems  
 Managing Atrial Fibrillation  
 Managing the Patient on Home Mechanical Ventilation  
 OT After Acute Stroke: Medical Treatment and Early Mobilization  
 Positioning for Dysphagia Treatments and Feeding  
 Prehab to Discharge: Total Joint Replacement Acute Rehab Updates  
 Preventing and Managing Persistent Postoperative Pain  
 PT After Acute Stroke: Medical Treatment and Early Mobilization  
 PT/OT: Introduction to Patient Treatment in the ICU  
 Pulmonary Function Testing: Spirometry  
 Roles and Expectations for SLPs in Acute Settings  
 Severe Obesity Co-morbidity in Acute Care: Best Practices for Rehabilitation  
 Skill Builder: Beside Dysphagia Eval PO Trials

SLP Considerations for Patients on a Ventilator  
 SLP Documentation: Best Practices for Acute Care  
 SLP: Acute Aphasia Assessment and Treatment  
 Strokes: A Left and Right Sided Comparison  
 Suicide Prevention Training for Rehab Therapists  
 The ICU: Navigating Equipment, Tubes, Lines, and Drains  
 The Role of PT/OT in Discharge Planning in Acute Care  
 The Role of SLPs in Discharge Planning in Acute Care  
 Trauma-Informed Care  
 Use of Pet Therapy

### Assistive and Prosthetic Devices

Conducting a Standard Wheelchair Evaluation  
 Custom Wheelchair Evaluations and Documentation  
 Introduction to Orthotics for Patients in PAC: Types, Indications, and Fit  
 Skill Builder: How to Correct Wheelchair Sitting Posture  
 Standard Wheelchair Fitting: The Mat Assessment  
 Upper Extremity Orthoses: Selection and Fitting for OTs

### Cardiopulmonary Therapy

About Capnography  
 Advanced Heart Failure: Pathophysiology, Clinical Presentation, and Implications for Rehab  
 An Introduction to Pulmonary Rehabilitation  
 Anatomy and Physiology Review: The Cardiovascular System  
 Applied Anatomy and Physiology of the Respiratory System  
 Assessing Function: Patients Post COVID-19  
 Assessing Function: Patients with Post-COVID Conditions  
 Cardiac Pharmacology: What Rehabilitation Providers Need to Know  
 Cardiovascular Disease: Common Conditions and Implications for Rehab  
 Cardiovascular System Anatomy and Physiology: Foundations for PTs and OTs  
 Energy Conservation: Effective Strategies for PTs and OTs  
 Exercise Prescription and Pulmonary Disease  
 Heart Failure: Rehab's Role in Reducing Risk of Readmission

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

How to Conduct and Score the Ventilatory Response Index (VRI)

Intervention: Prescribing Exercise to Patients Post COVID-19

Managing COPD in Home Health: Rehab Therapy Best Practices to Prevent Readmissions

Managing COPD in the Home Care Setting to Prevent Readmissions for Rehab Therapists

Obstructive and Restrictive Lung Disease: Medical Management and Effective Rehab Interventions

Post-ARDS: Monitoring and Treatment Techniques for Therapy Professionals

Pulmonary Disease: Common Conditions and Implications for Rehab

Pulmonary Disease: Supporting Self-Management

Pulmonary Function Tests: Application to the Plan of Care

Remote Therapeutic Monitoring for Physical Therapy Professionals

Skill Builder: Trachs and Vents - Considerations for PT and OT

Treating Clinically Complex Patients: Blood Pressure Management

Treatment Considerations: Patients on Continuous Cardiac Monitoring

## Cardiopulmonary Therapy Plus

A Glance at Atrial Rhythms

At a Glance: Atrial Heart Rhythms

At a Glance: Heart Blocks

At a Glance: Junctional Rhythms

At a Glance: Sinus Rhythm

At a Glance: Ventricular Rhythms

Cardiac-Related Medications: Impact on Activity Tolerance and Function

Cardiopulmonary Disease: Evidence-Based Exercise Prescription

COPD-Related Medications: Impact on Activity Tolerance and Function

ECG Interpretation for the Physical Therapist

Energy Conservation: Effective Strategies

Management of Patients with Ventricular Assist Devices

NY Heart Association Functional Classification System

Overview of Ventricular Assist Devices (VADs)

Pacemakers, ICDs, Cardiac Loop Recorders Clinical Considerations

Peripheral Vascular Assessment Techniques

Respiratory Medications: What Rehab Therapists Need to Know

Right Versus Left Ventricular Myocardial Infarctions

Right vs. Left Sided Heart Failure: Signs and Symptoms

Skill Builder: Performing Chest PT

Skill Builder: VAD Advisory and Warning Alarms

Submaximal Graded Exercise Testing: Application of Results

Teaching Self Management Skills: How to Use a Soft Mist Inhaler

Teaching Self-Management Skills: How to Use a Dry Powder Inhaler (DPI)

Teaching Self-Management: Active Breathing Techniques

Teaching Self-Management: How to Take a Daily Dry Weight

Teaching Self-Management: Use of Incentive Spirometry

Teaching Self-Management: Using a Resistance Breather

The TAVR Procedure - Impact on Patient Function

## Documentation & Coding for Therapy

Best Practices in Documentation for Rehab Providers

Consolidated Billing

Documentation Best Practices for PTs/PTAs

Effective Documentation in Post-Acute Care

Essentials of Corporate Compliance

Essentials of HIPAA

Goal Writing and Modification: Best Practices for OTs

Home Health OASIS Overview

Home Health PDGM and the OASIS

How to Use the National Outcomes Measurement System (NOMS)

How to Write Functional Physical Therapy Goals

ICD-10 Coding for Rehab Therapy Professionals

Introduction to Pediatric Rehab for SLPs

IRF-PAI: Role of the PT, OT, and SLP

Maintenance Therapy: Best Practices for Therapists and Assistants

Medicare Part A: A Guide for Occupational Therapists

Medicare Part A: A Guide for Physical Therapists

Medicare: An Introduction

Medicare: SNF Eligibility

Medicare: SNF Skilled Services

OT: Opening a Home Health Episode of Care

Podcast: VBP - What Is the Value of Physical Therapy in Value-Based Care?

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

PT/OT DME: Making Clinical Recommendations and Documenting Necessity

SNF Eligibility and Coverage: Medicare

SNF Medicare Skilled Services

SNF PDPM

SNF Quality Measures and Section GG Coding for PT/OT

The Business of Therapy: Documentation & Billing Under Medicare Part B

Therapy Delivery Models: Individual, Group, Concurrent, and Co-Treatment

Understanding SNF Medicare Coverage

## Documentation & Coding Plus for Therapy

Assessing Social Determinants of Health

Delivering Telehealth - Setting Up Your Practice For Success

OASIS: Start of Care Assessment

Podcast: Implementation of OASIS-E - What Rehab Therapists Need to Know

Podcast: Is That Skilled? Myths and Reality of Providing a Skilled Rehab Intervention

## Ethics and Jurisprudence for Therapy

Dementia Care: Ethical Considerations

Diversity, Equity, and Inclusion for Rehabilitation Therapists

Elder Abuse: The Elder Justice Act

Ethics and Jurisprudence: Indiana PT Providers

Ethics and Jurisprudence: Massachusetts OT Providers

Ethics and Jurisprudence: Massachusetts PT Providers

Ethics and Jurisprudence: Massachusetts PTs and PTAs

Ethics and Jurisprudence: Tennessee PT Providers

Ethics and Jurisprudence: Tennessee PTs and PTAs

Ethics for Nursing Home Administrators: Advanced

Ethics for OT Providers: 1 Hour

Ethics for OT Providers: 2 Hours

Ethics for PTs and PTAs: 2 Hours

Ethics for PTs and PTAs: 3 Hours

Ethics for Speech-Language Pathology and Audiology: 2 Hours

Florida OT Laws and Rules

Georgia Ethics and Jurisprudence for PTs/PTAs

Jurisprudence for Alabama PT Providers

Professionalism in Rehabilitation Therapy: Working with Older Adults

## Fraud and Abuse for Therapists

Fraud, Waste, and Abuse in Skilled Therapy

Preventing Medical Errors: Role of SLPs and Audiologists

Preventing Medical Errors: The Role of Occupational Therapists and Assistants

Preventing Medical Errors: The Role of Physical Therapists and Assistants

## Military Content

15 Things Military and Veteran Kids Want You to Know

15 Things Military Caregivers Want You to Know

15 Things Veterans Want You to Know

15 Things Veterans Want You to Know for Healthcare Providers

Addressing Behavioral Health Needs of Veterans

Addressing Substance Use in Military and Veteran Populations

Barriers to Treatment

Connecting with the VA

Effects of Deployment, Combat Stress, and Moves on Families and Children

Food Insecurity: Bringing Solutions to the Table

Improving Clinical Competency Through an Understanding of Military Culture

Inner Conflict and Survivor's Guilt

Military Sexual Trauma

Pain as a Gatekeeper for Combat Trauma

Preventing Suicide Among Veteran Populations

Service Dogs and their Military Veteran Humans: A Bond Like No Other

Supporting Resilience in Military Families and Children

Veterans and Mental Health Conditions

Women Veterans Series

Working with Individuals Experiencing Homelessness

Working with Individuals Experiencing Homelessness and Substance Use Disorder

## Neurological Therapy

A Patient with Progressive Supranuclear Palsy: Role of Skilled Therapies

Amyotrophic Lateral Sclerosis: Overview for Occupational Therapy Professionals

Amyotrophic Lateral Sclerosis: Overview for Physical Therapy Professionals

Amyotrophic Lateral Sclerosis: Overview for Speech-

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

## Language Pathologists

An Overview of Central Nervous System Infections  
An Overview of Stroke Rehabilitation for Home Health PTs  
Benign Paroxysmal Positional Vertigo (BPPV): Evaluation and Treatment  
Brain Injury: Impact on Emotion and Behavior  
Brain Injury: Leverage your Team! Neuropsychologists and the Rehab Team  
Brain Injury: Treatment Strategies for Physical Therapy  
Brain Injury: Visual Impairments and Rehabilitation  
Caring for Individuals with Traumatic Brain Injury  
Closed-Chain Neuromuscular Shoulder Exercises  
CNS Anatomy and Physiology: Changes with Aging and Impacts on your Plan of Care  
COVID-19: Management of Multi-System Impairments for PT Professionals  
Differential Diagnosis of Dizziness in Older Adults  
Enhancing Language in Patients with Alzheimer's Disease or Dementia  
Evaluation and Treatment of Contraversive Pushing for PTs and OTs  
Evaluation and Treatment of Visual Impairment from Neurological Injury  
Facilitating Self-Feeding in Neurological Rehabilitation  
Guillain-Barre Syndrome: An Overview for Rehab Therapists  
Hemiplegic Shoulder: Improve Function, Reduce Risk of Complications  
How to Integrate Neuroplasticity Principles into Rehabilitation  
How to Recognize Symptoms of a Stroke or TIA  
Impaired Executive Function: Definition and Impact on Rehab Interventions  
Improve Fine Motor Skills: Leverage Neuroplasticity  
Improving Patient and Caregiver Engagement in Neurorehab  
Interprofessional Rehab of Patients with Executive Function Impairment  
Interprofessional Rehab of People with Right Hemisphere Brain Damage  
Introduction to Constraint-Induced Movement Therapy for PTs/OTs  
Introduction to Motor Control & Motor Learning  
Introduction to the Balance Systems and Assessment for OTs  
Introduction to the Balance Systems and Assessment for PTs  
Meniere's Disease: Identification and Management by

## Rehab Therapists

Multiple Sclerosis: Interventions for PT/OT  
Multiple Sclerosis: Presentation and Evaluation for PT/OT  
Overview and Rehabilitation Considerations: A Spotlight on MS, Huntington's Disease, ALS, and SMA  
Parkinson's Disease and Parkinsonism: An Overview for PT, OT, and SLP Providers  
Parkinson's Disease: Advanced Interventions for PT  
Parkinson's Disease: Evidence-Based Interventions for Occupational Therapy  
Parkinson's Disease: Evidence-Based Interventions for Physical Therapy  
Physical Therapy Outcome Measures to Predict Prognosis Post-Stroke  
PT Assessment and Interventions for Adults with Persisting Symptoms After a Concussive Event  
PT Skill Demonstration: Lower Extremity PNF  
Skill Builder: Dressing Interventions in Neuro Rehab  
Skill Builder: Toileting and Bathing Interventions in Neuro Rehab  
Spinal Cord Injuries: Overview for OT  
Spinal Cord Injuries: Overview for PT  
TBI and Balance in Older Adults: Evaluation and Treatment Best Practices for PTs  
TBI and Physical Therapy: Treatment Best Practices  
Therapeutic Approaches to Peripheral Neuropathy: From Diagnosis to Discharge  
Traumatic Brain Injury: Best Practices for the Interdisciplinary Team  
Upper Limb Apraxia: Introduction for Rehabilitation Therapists  
Using Orthoses to Manage Wrist/Hand Hemiplegia  
Vestibular Rehab: Pathophysiology, Assessment, and Treatment

## Neurological Therapy Plus

Calculating Dual Task Cost  
Canalith Repositioning for Horizontal Canal BPPV: Home Setting  
Canalith Repositioning Maneuvers for Horizontal Canal BPPV  
Grooming Interventions in Neurological Rehabilitation  
How to Perform the Roll Test for BPPV  
How to Perform the Roll Test for BPPV: Home Setting  
Neuromuscular Exercise for the Cervical Spine

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

Performing Brandt-Daroff Exercises for BPPV  
 Performing Brandt-Daroff Exercises for BPPV: Home Setting  
 Performing the Dix Hallpike Maneuver  
 Performing the Dix Hallpike Maneuver: Home Setting  
 Performing the Epley Maneuver for BPPV  
 Performing the Epley Maneuver for BPPV: Home Setting  
 Performing the Liberatory (Semont) Maneuver for BPPV  
 Performing the Liberatory (Semont) Maneuver for BPPV: Home Setting  
 Performing the Side-Lying Test for BPPV  
 Performing the Side-Lying Test for BPPV: Home Setting  
 Pharmacology & Neurological Rehabilitation: Impact on Interventions  
 Podcast: AFOs - The Myths, the Realities, and the Clinical Practice Guidelines  
 Podcast: Challenging Behaviors Post TBI Best Practices for Rehab Therapists  
 Podcast: Dance for Rehabilitation? Evidence-Based and Fun!  
 Podcast: Integrating Spaced Retrieval Techniques into Intervention  
 Podcast: PT Management of Persistent Post-Concussion Symptoms  
 Podcast: Updates in Evidence-Based Management of Concussion/mTBI  
 Screening Tools for Impairments in Executive Function: Attention  
 Skill Builder: Nine-Hole Peg Test  
 Skill Builder: Spaced Retrieval Technique  
 Skill Demonstration: Cranial Nerve Testing  
 Skill Demonstration: Dermatome and Myotome Testing  
 Skill Demonstration: How to Conduct a Neurological Screen  
 Skill Demonstration: Muscle Tone and Reflex Testing  
 Skill Demonstration: Neuro Coordination Screen  
 Skill Demonstration: PNF for the Lower Extremity  
 Skill Demonstration: PNF for the Upper Extremity  
 TBI and Occupational Therapy: Treatment Best Practices

## Orthopedic Therapy and Pain Management

Achilles Tendinopathy: An Introduction to Rehabilitation  
 Best Practices for Post-Acute Rehabilitation Post Total Knee Arthroplasty  
 Best Practices: Myofascial Release  
 Carpal Tunnel Syndrome: Evaluation and Treatment

Case Study: Cervical Spine Pain in an Older Adult  
 Case Study: Foot and Ankle Pain in a Complex Older Adult  
 Case Study: Low Back Pain in a Frail Older Adult  
 Chronic Pelvic Pain: PT Management  
 Clinical Prediction Rules: Application to Patients with Low Back Pain  
 Common Finger/Thumb Impairments: OT Evaluation and Treatment  
 Common Finger/Thumb Impairments: PT Evaluation and Treatment  
 Common Impairments and Functional Assessment of the Ankle and Foot  
 Common Spinal Surgeries: Procedures and OT Management  
 Common Spinal Surgeries: Procedures and PT Management  
 Compartment Syndrome: Assessment and Interventions  
 Custom or Commercial Foot Orthotics? Evaluation & Assessment  
 Distal Radius Fractures: Clinical Presentation and Treatment  
 Edema Management: Interventions for PT/OT  
 EIM - Pelvic Health: Post-Op and Pharmacology  
 EIM - Pelvic Health: Special Populations  
 EIM: Pain Neuroscience Education  
 EIM: Pain, Ethics, and the Opioid Epidemic  
 EIM: Peri-Operative Pain Neuroscience Education  
 Elbow Rehab: Treatment of Common Conditions  
 Evaluating Common Impairments of the Hip and Knee  
 Evaluating The Elbow: Best Practices for Rehabilitation Therapists  
 Evaluating the Knee: Joint Mobility  
 Evaluating the Knee: Palpation of Muscles  
 Evaluation and Treatment of Hand Osteoarthritis  
 Evaluation of Knee Pain in Older Adults: Best Practice for PTs  
 Evidence-Based Treatment for Common Shoulder Impairments  
 Foundations for Shoulder Rehab: Anatomy, Common Impairments, and Treatment Approaches  
 Frozen Shoulder: Clinical Diagnosis and Treatment Strategies for PT and OT  
 Frozen Shoulder: Differential Diagnosis and Treatment  
 Hand Injuries: An Introduction to Evaluation and Treatment  
 Headaches: Introduction To Differential Diagnosis and Treatment Approaches  
 Interventions: Electrical Stimulation Modalities

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

Introduction to Kinesiology Taping  
 Kinesiology Taping: Shoulder  
 Knee Osteoarthritis: Evaluation and Treatment  
 Knee Pain in Older Adults: Evidence-Based Treatment Interventions  
 Lateral Elbow Tendinopathy: Evaluation and Treatment  
 Low Back Pain: Differential Diagnosis  
 Low Back Pain: Physical Therapy Evaluation and Treatment  
 Manual Therapy Fundamentals: Techniques and Clinical Application  
 Neck Pain: Physical Therapy Evaluation  
 Neck Pain: Physical Therapy Treatment  
 Orthopedic Examination and Treatment: Ankle and Foot  
 Orthopedic Examination and Treatment: Hip  
 Pain Management: Best Practices for Patients with Dementia  
 Physical Therapy Best Practices for Lumbar Spine Stabilization  
 Rheumatoid Arthritis and PT: Foundations and Treatment Approaches  
 Rheumatoid Arthritis: Overview for Physical Therapists  
 Rotator Cuff Tear: Assessment and Treatment  
 Scoliosis Across the Lifespan  
 Shoulder Impingement Syndrome: Differential Diagnosis and Treatment  
 Skill Builder: Palpation Techniques - Foot/Ankle  
 Skill Refresher: Dry Needling - Gastrocnemius  
 Skill Refresher: Dry Needling - Lumbar Multifidi  
 Skill Refresher: Dry Needling - Upper Trapezius  
 Splinting: An Introduction for Occupational Therapists  
 Tendinitis or Tendinosis? Clinical Diagnosis and Evidence-Based Treatment  
 Therapeutic Ultrasound: What Do We Know? Does Evidence Support Effectiveness?  
 Thoracic Pain: Physical Therapy Evaluation and Treatment  
 TMJ: Anatomy, Physiology, and Pathophysiology  
 TMJ: Best Practices in Physical Therapy Evaluation and Interventions  
 Trochanteric Pain Syndrome: Management in Recreational Athletes and Seniors  
 Upper Limb Amputation: An Overview for PT/OT Providers

## Orthopedic Therapy and Pain Management Plus

Evaluating the Hip: Joint Mobility  
 Evaluating the Hip: Manual Muscle Testing  
 Evaluating the Hip: Palpation of Anatomical Landmarks  
 Evaluating the Hip: Palpation of Muscles  
 Evaluating the Hip: Range of Motion  
 Evaluating the Shoulder: Comprehensive Strength Testing  
 Evaluating the Shoulder: Functional Mobility  
 Evaluating the Shoulder: Joint Mobility  
 Evaluating the Shoulder: Observation  
 Evaluating the Shoulder: Palpation of Anatomical Landmarks  
 Evaluating the Shoulder: Palpation of Muscles  
 Evaluating the Shoulder: Range of Motion  
 Kinesiology Taping: Edema Reduction  
 Kinesiology Taping: Foot/Ankle  
 Kinesiology Taping: Knee  
 Kinesiology Taping: Lower Back  
 Open-Chain Neuromuscular Exercise for the Shoulder  
 Podcast: A 3-Dimensional Approach to Addressing Scoliosis  
 Podcast: Are You Up to Date? Best Practices in Managing Knee Osteoarthritis  
 Podcast: Do OTs and OTAs Manage Chronic Pain?  
 Skill Builder: Assessing Functional Movement of the Foot/Ankle  
 Skill Builder: Assessing Functional Movement of the Hip/Knee  
 Skill Builder: Assessing ROM - Wrist/Hand  
 Skill Builder: Assessing Strength - Wrist/Hand  
 Skill Builder: Evidence-Based Exercises - Foot/Ankle  
 Skill Builder: Evidence-Based Exercises - Hip  
 Skill Builder: Evidence-Based Exercises - Lumbar Spine  
 Skill Builder: Evidence-Based Exercises - Thoracic Spine Mobility  
 Skill Builder: Evidence-Based Strength Exercises - Wrist/Hand  
 Skill Builder: MMT of the Rotator Cuff  
 Skill Builder: MMT of the Scapular Stabilizers  
 Skill Builder: Mobilization Techniques - Foot/Ankle  
 Skill Builder: Mobilization Techniques - Hip  
 Skill Builder: Mobilization Techniques - Knee  
 Skill Builder: Mobilization Techniques - Wrist/Hand  
 Skill Builder: Soft Tissue Mobilization Techniques  
 Skill Builder: Special Tests for the Foot/Ankle

Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.

Skill Builder: Special Tests for the Hip  
Skill Builder: Special Tests for the Knee  
Skill Demonstration: Instrument-Assisted Soft Tissue Mobilization  
Testing for Subacromial Impingement

## Outcome Measures and Assessments

Balance/Fall Evaluation: Visual Screening  
Skill Builder: Modified Clinical Test of Sensory Integration & Balance  
Skill Builder: The 30-Second Chair Rise Test  
Skill Builder: The 4-Stage Balance Test  
Skill Builder: The Berg Balance Scale  
Skill Builder: The Brief and Mini BEST Tests  
Skill Builder: The Dynamic Gait Index  
Skill Builder: The Four Square Step Test  
Skill Builder: The Function in Sitting Test  
Skill Builder: The Functional Gait Assessment  
Skill Builder: The Timed Up and Go Test  
Skill Builder: The Tinetti - Performance Oriented Mobility Assessment  
Skill Builder: Walking Speed  
Skill Demonstration: The Two Minute Walk Test  
Skill Refresher: The Six-Minute Walk Test (6MWT)

## Patient Education

Self-Management Skills: Active Breathing Techniques  
Self-Management Skills: Diaphragmatic Breathing  
Self-Management Skills: Diaphragmatic Breathing (Spanish)  
Self-Management Skills: Fall Risk Management  
Self-Management Skills: Fall Risk Management (Spanish)  
Self-Management Skills: How to Recognize a Stroke or TIA  
Self-Management Skills: How to Recognize a Stroke or TIA (Spanish)  
Self-Management Skills: How to Take Your Daily Dry Weight  
Self-Management Skills: Physical Activity for Adults  
Self-Management Skills: Physical Activity for Adults (Spanish)  
Self-Management Skills: Physical Activity for Older Adults  
Self-Management Skills: Physical Activity for Older Adults (Spanish)  
Self-Management Skills: Pursed Lip Breathing  
Self-Management Skills: Pursed Lip Breathing (Spanish)  
Self-Management Skills: The Borg CR-10 RPE Scale

Self-Management Skills: The Borg CR-10 RPE Scale (Spanish)  
Self-Management Skills: Use of Incentive Spirometry  
Self-Management Skills: Using a Resistance Breather  
Self-Management Skills: Using a Resistance Breather (Spanish)

## Respiratory Therapy

Airway Devices and Management  
An Introduction to Home Health for RTs  
Common Respiratory Therapy Assessments in the Home  
COVID-19 and Post-COVID Conditions: Post-Acute Respiratory Therapy  
Diagnostic Tests for Respiratory Conditions: Understanding Results  
Emergency Respiratory Care of Children  
Evidence-Based Management of Dyspnea  
Exercise-Induced Bronchoconstriction  
Introduction to Respiratory Therapy in Skilled Nursing  
Lung Cancer: Care Considerations  
Lung Cancer: Screening to Treatment Options  
Managing Breathing with COPD  
Noninvasive Positive Pressure Ventilation  
Obstructive Sleep Apnea  
Preventing Aspiration in Vulnerable Populations  
Pulmonary Patient: Palliative Care  
Respiratory Therapy and the MDS 3.0  
Successful Ventilator Weaning  
The Role of Respiratory Therapist in Medication Management

## Speech Therapy

AAC Strategies for Patients with ALS  
Adult Language Expression and Comprehension: How to Screen, Evaluate, and Treat  
Adult Language Expression and Comprehension: Screening, Evaluation, and Treatment  
An Introduction to Home Health for SLPs  
Apraxia of Speech: SLP Evaluation and Intervention for Adults  
Assessing Swallow Function: Clinical and Instrumental Methods for SLPs  
Assessment and Intervention for Confabulation  
Assessment and Treatment of Guillain-Barre: SLP Considerations  
Augmentative and Alternative Communication (AAC):

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

Implementation and Ongoing Assessment in Adults  
 Augmentative and Alternative Communication for Pediatrics  
 Clinical Education and Supervision Guidelines for SLPs  
 Elevating Dysphagia Care: SLP Approaches to Nursing Education and Empowerment  
 Enteral Nutrition and the Transition to Oral Feeding  
 Ethics for Speech-Language Pathologists: 1 Hour  
 Ethics for Speech-Language Pathology and Audiology: 1 Hour  
 Head and Neck Cancer: Dysphagia Management for SLPs  
 Managing Dysphagia: An Interdisciplinary Approach  
 Multiple Sclerosis and the SLP: Clinical Presentation and Best Practices in Evaluation  
 Multiple Sclerosis and the SLP: Interventions  
 Overview: Patients with Aphasia and Associated Cognitive Impairments  
 Parkinson's Disease: Assessment and Interventions for SLPs  
 Performing a Speech Therapy Functional Assessment on Patients with Mental Health Disorders  
 Primary Progressive Aphasia: SLP Diagnosis and Intervention  
 Skill Builder: SLP Considerations for Adults with a Tracheostomy  
 SLP and TBI: Treating Communication and Cognition Impairments in Older Adults  
 SLP Before and After Total Laryngectomy: Communication Interventions  
 SLP Cognitive Evaluation: Assessment Post-Stroke  
 SLP for Mild Cognitive Impairment: Evidence-Based Interventions  
 SLP Interventions for Dementia: Cognition and Communication  
 SLP Interventions for Post-Acute Stroke Care  
 SLP Treatment of Common Voice Disorders in Adults  
 Swallow Assessment: Clinical and Instrumental Evaluation  
 TBI: Treatment Strategies for the SLP  
 The International Dysphagia Diet Standardisation Initiative (IDDSI)  
 Tracheostomies and Speaking Valves: An Introduction for SLPs  
 Using Electrical Stimulation for Dysphagia

## Speech Therapy Plus

How to Apply a Speaking Valve  
 Podcast: Assessment Trends in Speech-Language Pathology  
 Podcast: Best Practices for SLPs to Implement IDDSI

**Podcast: Ditch Your Workbooks** SLP Functional Communication Best Practices for Best Outcomes in Home Health  
 Podcast: Do E-Cigarettes Impact An SLP Evaluation?  
 Podcast: Dysphagia and Telepractice Technology Post-2020: Lessons Learned & Best Practices  
 Podcast: How Can SLPs Demonstrate Value? Demonstrate Your Competency!  
 Podcast: SLP Role and Value in Home Health Value-Based Care  
 Skill Builder: Bedside Swallow Evaluation - Patients with Tracheostomy  
 Skill Builder: Oral Peripheral Examination for Speech and Swallowing  
 SLP Assessment of Voice Disorders in Adults  
 Telepractice in Post-Acute Care Settings for SLPs

## Therapy for Geriatric Populations

Advanced Dementia: Interventions for Rehab Therapists  
 Age-Related Cognitive Changes: Impact on Rehab Therapy  
 Aging and Mental Health: Rehabilitation Impacts for PT, OT, and SLP  
 Aging in Place: Aligning Rehabilitation Interventions to Patient Goals  
 Balance Training for Older Adults in the Acute Setting  
 Creating a Dementia-Friendly Environment in the Home  
 Creating Dementia-Friendly Environments in the Healthcare Setting  
 Creating Dementia-Friendly Healthcare Environments: Practical Applications for Rehab Therapists  
 Dementia: Introduction to OT Interventions  
 Evidence-Based Balance Assessment for PTs  
 Evidence-Based Balance Interventions for PTs/PTAs  
**Fall Risk Screening** STEADI Tool for Community-Dwelling Older Adults  
 Feeding and Swallowing Interventions for Persons with Dementia  
 Footwear for Older Adults: Good Fit Equals Great Outcomes  
 Functional Strength Training For Frail Older Adults  
 Functional Strength Training for Older Adults  
 Geriatric Syndromes: An Introduction For Rehabilitation Therapists  
 How to Perform Monofilament Testing of the Foot  
 How to Prevent Falls in the Home  
 How to Use Transfer Aids

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

Implementing Home Accessibility Interventions for Older Adults

Incontinence: Functional Anatomy and Impairments

Interventions to Address Altered Base of Support During Ambulation

Interventions to Improve Gait Speed in Older Adults

Interventions to Improve Stride Length in Older Adults

Introduction to Fall Risk Management for Older Adults

Low Vision Intervention for Older Adults

Maintenance Therapy: Indications, Delivery, and Documentation

Managing Fall Risk in Patients with Multiple Comorbidities

MCI and Early Dementia: Identification and Treatment Strategies for Rehab Therapists

Mechanical Lifts

Moving Forward: Best Practices for Prescribing Mobility Aids for People with Dementia

Older Adult Driving Safety: An OT Introduction to Evaluation and Treatment

Older Adults and Low Vision: Impact on Therapy Interventions

Osteoporosis: Interventions and Implications for PT/OT

Pharmacology in Geriatrics: Common Medications and Implications for Rehab Providers

Physical Therapy Interventions for Individuals Living with Dementia

Podcast: Fall Risk and Dementia - Solutions for Rehabilitation Therapists

Podcast: What Are Best Practices for Rehabilitation Post Hip Fracture?

Preventing Falls: An Interdisciplinary Approach

PT Interventions for Gait Deviations in Older Adults

PT/OT Treatment Strategies for Patients with Moderate

Dementia

Screening for Telehealth: Is My Patient Appropriate?

Severe Obesity and Geriatrics: Effective Rehabilitation Interventions

Skill Builder: How to Identify and Manage Delirium

Skill Builder: Identifying and Managing Delirium

Skill Builder: Prescribing the Otago Exercise Program

Skill Builder: Short Physical Performance Battery

Strategies: Working with Individuals with Mild Cognitive Impairment

The Otago Exercise Program: Foundations for Rehab Therapists

Understanding Aging: Implications for PT, OT, and SLP Practice

Using the Mini-Cog®

Vision Impairment in Older Adults: Screening and Interventions

## Therapy for Pediatric Populations

A School-Based Team Approach to Caring for a Child with CP

ADHD in Pediatric Clients: An Overview for SLPs

Autism Spectrum Disorder: Overview and SLP Interventions for Pediatric Clients

Developmental Delay: Understanding the Screening and Assessment Process for PTs and OTs

Engaging Individuals with Autism Spectrum Disorder in PT and OT Interventions

Interventions for Auditory Processing Disorder in Children

Interventions for Oral Hyposensitivity and Hypersensitivity in Children

Interventions for Proprioception Processing Disorders in Children

Interventions for Tactile Processing Disorders in Children

Interventions for Vestibular Processing Disorders in Children

Interventions for Visual Processing Disorders in Children

Interventions to Improve Ideation and Planning in Children

Introduction to Pediatric Rehab for PT and OT

Learning Disabilities: Screening and Assessment for OTs

Pediatric Core Strengthening Exercises

Pediatric Feeding and Swallowing Disorders: A Guide for SLPs and OTs

Pediatric Feeding and Swallowing Disorders: Evaluation and Treatment

Pediatric Rehab: Identifying Developmental Delay

Pediatric Rehab: Normal Developmental Milestones

**Current course listing. Course listing is subject to change as updates are made. Individual courses may appear in multiple categories.**

Podcast: Growing Up in a Pandemic: Impact on Kids with Developmental Delay

Podcast: Kids and Concussion: Best Practices in Rehab

SLP Assessment: Common Language Disorders in Pediatric Clients

Supporting Parents of Children with Special Healthcare Needs

The Family Is The Rehab Team: Best Practices For Pediatric Therapists

## Therapy General Topics

A Review of Wound Drain Management

About Clostridioides Difficile

ADL Assessment: Best Practices for OTs

An Introduction to Home Health for PTs and OTs

Applying Motivational Interviewing to Therapy Interventions

Assessing and Screening for Suicide Risk

Assistive Devices for Ambulation: Best Practices in Matching Device to Impairment

Best Practices for Aligning Therapy Frequency with Clinical Presentation

Best Practices for Managing and Documenting Patient Refusals

Best Practices to Manage Inappropriate Patient Sexual Behavior

Changing the Culture to Person-Centered Care

Chronic Kidney Disease Pathophysiology: Impact on Function

Cognitive-Communication Deficits with Post-COVID Conditions: Best Practices for SLPs

Community-Based Interventions to Reduce Suicide Risk

Dysphagia: An Overview for Occupational Therapists

Evaluating and Assessing Supplemental Oxygen Needs of Your Patients

Exercise Prescription for Medically Complex Patients

Fire Safety

Free Water Protocol

Functional Maintenance Programs: Goals and Implementation

Group Therapy: Guidelines and Implementation

Heat-Based Modalities: Ultrasound, Diathermy, and Paraffin

History of COVID? Impact on the Rehabilitation Plan of Care

HIV: Overview for Rehabilitation Therapists

Home Modifications: Bedroom and Bathroom

Home Modifications: Kitchen and Living Room

Home Modifications: Outside Environment

Hospice and Palliative Care: The Role of Rehabilitation Therapy

Hospice: Roles and Responsibilities of OT

How to Empower Patients to Manage Their Own Health

Interpreting Lab Values: Impact on Rehab Therapy

Introduction to Aquatic Physical Therapy

Introduction to Telehealth for Rehab Professionals

Lower Extremity Amputation: An Overview for PT and OT Providers

Lower Extremity Amputation: Introduction for Rehabilitation Clinicians

Lymphedema: An Overview for PT and OT Providers

Lymphedema: Foundations for Occupational Therapists

Maintaining a Safe Home Environment

Managing Risk of Readmission: The Role of Rehab Therapists

Medical Treatment of Cancer: An Overview for Rehab Therapists

Medically Complex Patients: Best Practices for Home Health Therapists

Mindfulness-Based Interventions: Incorporation Into Clinical Practice for Adults

Mindfulness-Based Techniques for Therapy Professionals

Muscular Dystrophy: Foundations for PT, OT, and SLP

Nutrition and Cardiovascular Disease: Building Blocks for Best Outcomes

Nutrition For Rehab Therapists: Impact on Frailty, Deconditioning, and Recovery

Obesity: Impact on Clinical Presentation for Rehabilitation

Osteoporosis: An Overview

Overview of Evidence-Based, Suicide-Specific Interventions
